

PLEASE GIVE US YOUR FEEDBACK ON THE COMMUNITY BUILDING

You might want to consider:

- If you agree that the community building is important, and why
- Your thoughts on running the hub build as a community build. Who could be involved/who could we work with? Who could benefit from education/training?
- How we can fund the hub - grants, fundraising campaign, loans, other ideas?
- If you would be interested in booking the function room, could you tell us what for/how frequently/any other information to help us understand how much income we could generate?
- Can you offer any expertise to help plan/fund/build the hub?
- Would you be interested in extending a loan to build the hub, or making a donation?
- Any other ideas?

Please provide your contact details if you would like us to follow up on any of your feedback.

Please give us your feedback on paper and pop it in the box – thank you.
